DETAILED ACTION

1. The Amendment and Declaration filed by Applicant on 02/08/2007 has not been entered.
2. The Claims filed on 02/08/2007 are non-compliant. The claim pages are terribly faded and impossible for are patent personnel to read. Please immediately resubmit a copy of the claim that is easily readable. The previous office action will remain in effect until the claims are resubmitted.
3. The Examiner has set forth a **1 (one) month time period** to respond

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1713

5. Claims 1-9 remain rejected under 35 U.S.C. 102(b) as being anticipated by Aaltonen et al., Macromolecules 1996, 29, 5255-5260. Aaltonen discloses a synthesis of a copolymer of ethylene with 10-undecen-1-ol. See Abstract. The polydispersities of polymers obtained by Aaltonen is shown in Table 3 and for certain amounts of alcohol do not exceed values of 3.

6. The claims are examined in the broadest interpretation possible. Monomer units (1) and (2) are the same or different olefin and with respect to monomer unit (3) $r=0$ leaving us with 10-undecen-1-ol as an anticipatory monomer. Thus, Aaltonen anticipates claims 1-9.
